The Marriage Preparation Program

a Humancare™ Program

The Marriage Preparation Program is designed to help couples successfully navigate the transition from engagement to a solid new marriage.

Based on clinical research into why some marriages fail and others succeed, this program provides a pre-marital workshop and on-line support for couples (telephone and internet) up to the end of the first year of marriage. An optional follow-up, Well Couple Check-Up, is also available to couples at a substantially discounted cost.

As a participant in the **The Marriage Preparation Program** you will have the comfort of knowing that you have access to qualified, professional marriage therapists who will support you during the crucial formative months of your marriage

Partners will primarily work with each other throughout the pre-marital workshop. A variety of educational methods will be employed, including couple discussion, experiential exercises, and skill practice.

The Well Couple Check-Up, is a clinical interview between couple and therapist arranged at the convenience of the couple between six and eighteen months after their wedding.

If you would like further information regarding this program, phone the **Humancare** office at

The registration fee is transferable to a different date when suitable notice is given, but is not refundable without forty-eight hours notice.
